## HILO FREE KINDERGARTEN.

### Report of the Secretary for the Past Year.

Very gratifying work has been done in the Hilo Free Kindergarten during the past year. The school has been ably carried on by Miss Harriet E. Huggins of Oakland and her faithful assistants, Miss Mealeha Uli and Miss Helen Kaina, who took up the work in the fall when Miss Emma Porter could no longer continue. On special days, visits have been made to a cobbler's shop, a blacksmith's shop, and to the Hilo Boarding School to see a taro patch.

On May 29th the children helped to decorate the soldiers' graves. In October, seventeen of the children accepted a kind invitation to a picnic on board of the steamer Enterprise.

The total enrollment has been 87, larger than during any previous year, with an average attendance of 51. Many of the children have been afflicted lately with the dengue fever.

A class of twelve was promoted to the Union School at Easter, and another will be ready for promotion in September.

Miss D. E. Sumner, who had a two years' leave of absence, will be welcomed back in the fall as principal, while at the same time we regret to lose Miss Huggins, who has in so many ways entered into the life of our community.

The committee wishes to thank the public for so kindly helping us to meet our obligations during the past year.

ELLEN G. LYMAN,  
Secretary Kindergarten Committee.

### Overheard Rehearsal.

How the Elks' minstrels will deal with local lunacies is apparent in the following skit, which a belated newspaper man heard when passing the rehearsal hall one night this week:

"Our journalistic paragons  
Are cutting quite a swath.  
(Whistling chorus.)  
Both fat and lean are frying  
In a fire of jealous wrath.  
(Whistling chorus.)  
When ere they meet our editors  
Put on a glassy stare.  
(Whistling chorus.)  
And sulphurous fumes pollute  
The blue and circumambient air.  
(Whistling chorus.)  
There's nothing beats an asses bray  
Unless it be a pair."  
(Whistling chorus.)

## LAND MATTERS DECIDED.

### Hawaii Land Problems Before Executive Council.

Hawaii Land matters almost monopolized departmental business at the Executive Council meeting Monday.

There was completion of an exchange between the Government and the Waialae Mill Co., by which the company surrenders a quarry site, also site for a powder magazine, receiving from the Government in return the control of Waialae fish pond during the existence of the company's lease of government land which expires 16 years from now.

Approval was granted to the putting up of one lot in Kahakuloa, Wailuku, containing an area of 360 acres, under special conditions as to residence, etc., at the upset price of \$4 an acre.

Recommendation was made of transferring to the Superintendent of Public Works 4000 acres of high and barren land in Honolualo, South Kona, for exchanges with land for road purposes, etc.

It was decided, on the application of John Maguire, that the high mountain land of Honolualo, North Kona, containing 3240 acres, be offered for lease for 21 years at \$20 per annum, the lessee to fence all forest land below such leasehold. It is estimated that the fencing will cost him approximately \$260 a mile, the length being four miles, and the fence will have to be maintained throughout the term of lease. It is a triangular piece of peak land on Hualalai mountain.

In the matter of the Public Works suggestion to Mr. Cooper, the names of A. J. Campbell and John Cassidy were discussed but nothing conclusive was done in advising the Governor on the matter.

### Trip of Teachers.

A patriotic fourth of July celebration is on the tapis at the Volcano House in honor of the presence there at that time of a large party of school teachers, and one of the features will be the raising of the Stars and Stripes on a new pole erected for the occasion.

The teachers, who are always leaders in things patriotic, will join in making the ceremonies interesting and attractive.

The special excursion for teachers will leave Honolulu by the Kinau on next Tuesday, reaching the Volcano House in the afternoon of Thursday. Ten days will be spent there, and then the return to Honolulu will be made by the Kona route on the Mauna Loa.

Following are the names of some of those who will make the trip, not all, however, belonging to the teachers' party: Miss Helen Putnam, Mrs. Rosalia, R. Weir, Miss Nellie Sturtevant, Dr. A. N. Sinclair, Mrs. A. N. Sinclair, Mabel Dryer, Miss Ella Rocheford, Mrs. E. F. Girard, Miss Maude Post, Miss Edna Horner, Miss Lillie Byington, Miss J. Neumann, Miss Mae Giles, Miss M. Macpherson. "Toney" Marcellino will accompany the party as conductor.

### News from the Flood.

E. E. Richards received a letter from his father in Kansas City which tells of the thrilling scenes incident to the great flood that has recently ravaged Missouri River towns. The Richards home in Kansas City was supposed to be above high water mark and little fear possessed its inmates who retired one night, feeling that the waters must recede. But the river rose many feet and before morning the people were rescued from upper windows in boats. When the waters finally fell, it was found a barn from some Kansas farm, had found a resting place on the roof of the Richards house.

### Enterprise Arrives.

The Enterprise, Captain Miller, arrived in Hilo Saturday, June 20, with a large cargo of merchandise and a big passenger list. The passengers were: Mrs. Edwards Waters, F. J. Vierra, Geo. W. Vierra, Miss Clara Shipman, Miss Carrie Shipman, Mrs. Claire, Mrs. Gregg and three daughters, the Misses Gaird, Captain Matson, Mrs. J. A. Scott, Miss Florence Scott, Alvah Irwin and Wallace Scott.

### Baseball Sunday.

W. T. BALDING,  
Acting Secretary.

## TOURISTS WAITING.

### P. R. Helm Found Many People in California.

Honolulu June 23.—"By proper effort Hawaii can get not only tourists in large numbers, but settlers as well," as California is doing," said P. R. Helm, secretary of the Merchants' Association yesterday. While in California recently he investigated the methods which California people are using successfully to flood that state with tourists. Mr. Helm believes that California will help Hawaii get tourists, provided of course, that the agitation is begun among the sources of tourist travel and not in California. For every tourist that comes to Hawaii naturally must pass through California, and in that way must help that State to some extent.

"While in California," continued Mr. Helm, "I familiarized myself with the methods being used to attract tourists. In general, it is simply to exploit and advertise the climate and other attractions of the State in the districts from which the tourists come—Boston, New York and Chicago. They work largely through the railroad companies and by advertising in the leading magazines and special correspondence in the Eastern newspapers and periodicals, keeping interest in the country aroused as much as possible.

"The transportation companies (I visited some of the offices in San Francisco) are willing to work with us here in Hawaii. The people who are advertising California are also willing and anxious to help us, provided that we do not work in California, but go further East where the tourists are.

"What the people want to know first is what we have here. I found that even the merchants at the Coast who trade with us knew very little about the country. They don't even know whether we have hotel accommodations for a small party.

"If we get up advertising matter properly, setting out our attractions specifically, and telling also how much a trip to Hawaii will cost, and how long it will take, we can get rates from the railroad companies and from the steamship lines as well. Everyone you meet on the Coast intends to go to Hawaii, and the first question they ask is how to get here. Then they want to know what we have, what our attractions are, and how long it will take to see them. It is astounding what an advertising propaganda has done for California, and what it might do for us. There are hundreds of wealthy families that come to California for the winter that have built fine houses in the State, and stay but a few months in the year. Much of the time they spend in traveling to various points of interest and resorts. It would seem to me that with the proper effort some of these people would make a side trip to Hawaii.

"What we want is a booklet with plenty of illustrations of Hawaiian life, surf riding, scenery, etc., to distribute. This could be done through the medium of the transcontinental lines. The general passenger agents would be willing to distribute this literature and route their passengers, so as to include Hawaii.

"This is a most opportune time for a tourist campaign. All eyes are turned toward the Pacific. We have the cable and new and commodious steamers are being added to the lines running to and through Honolulu. The 'middle' classes are traveling more than ever and are coming out West instead of touring the South and Europe. Hawaii has been everywhere heard of as a beautiful country, a 'Paradise of the Pacific' and what we want to give the people now is more specific information, so that they will know what they are coming to.

"We must have a headquarters here from which the campaign can be conducted, and work up excursions and the special rates will come. If we work for it, the tourists will come to us."

### Notice.

The public is notified that about 8 months ago a strange cow made its appearance at my Kaunama dairy and no one has to date identified or claimed the same. Owner may have the animal upon its identification, payment of pasturage and advertising notices.
